

Summary

10+ years experience in product management in B2B and B2C industries. Experienced in leading cross-functional teams, transforming ideas into successful products. I blend analytical and strategic thinking with effective communication. Grounded in strong business acumen, committed to perpetual learning and improvement.

Key skills and competences

Cross-functional team leadership and stakeholder management

- Led multiple teams of developers, QA engineers, designers, product analysts and data scientists.
- Effectively conveyed user stories to developers and stakeholders, reaching alignment across all teams.
- Worked together with teachers, principals and parents to develop my own chess coaching program.

Product lifecycle management

- Revamped product lifecycle workflows at Onside, resulting in a 70% reduction in ticket cycle time.
- Implemented both Kanban and Scrum agile methodologies at Onside, StSm and Chessable.

Product innovation and roadmapping

- Developed the product roadmap at Onside, drove strategic alignment between engineering, marketing and executive stakeholders and accelerated time-to-market by 30% through planning and prioritization.
- Developed product vision, strategy, roadmap and PRD's for the web application at Chessable.
- Developed an innovative ground cover at Beaulieu International and co-authored the corresponding patent.

Data analysis

- Implemented Amplitude dashboards to monitor business KPIs, boosting StSm's advertising effectiveness.
- Coordinated AB testing for Chessable's onboarding process, resulting in a 95% increase in verified users.
- Created and refined the product dashboard in Pendo following our product-led growth strategy at Onside.

Business strategy

- Strategic leadership: developed a 3 year business strategy for Chessimo according to the 10 P framework.
- Implemented microlearning and growth loop learning strategies at the EdTech company Chessable.

User-centered design

- Proficient in user-centered design methodologies, applying design thinking and the double diamond approach to create innovative solutions.
- Skilled in conducting insightful user interviews, demonstrating a keen ability to ask pertinent questions, actively listen, and uncover key user needs for informed design decisions.

Interpersonal skills

- Collaborated closely with designers, developers, marketers and business executives to reach alignment.
- Inspired and motivated thousands of school children to improve in chess.
- Broad cultural awareness after having lived in more than 8 countries in the world.

Software expertise

- Software development: HTML, CSS, Javascript, Bootstrap, php, MySQL, jQuery, JSON, Python
- Design: Figma, Illustrator, Balsamiq, Invision
- Product Management: Product Board, Jira, Confluence, Kanbanize, Dovetail
- Analytics: Amplitude, Pendo, Google Analytics, Fullstory, VWO, Matlab, Minitab
- Administrative: Microsoft office, Notion, Trello, Asana, Slack, Miro

Languages

- English and Dutch (business fluent), French and Spanish (intermediate), German (moderate)

Work Experience

Alliance of Bioversity International and CIAT

Head of Product

Arusha, Tanzania
